

Optogenetics Market Size, Share, Trends, Analysis, Report and Forecast to 2022

According to Statistics MRC, the Global Optogenetics market is expected to reach \$46.82 million by 2022.

GAITHERSBURG, MARYLAND, US, May 3, 2017 /EINPresswire.com/ -- According to Statistics MRC, the Global Optogenetics market is expected to reach \$46.82 million by 2022 growing at a CAGR of 17.7%. Optogenetics is the combination of optical and genetic

engineering is an emerging field of biotechnology to observe, analyze and organize physiological functions in animal brain. Some of the key drivers of the market include rising usage of optogenetics in neuroscience and behavioural science, recent technological advancements, rising number of labs worldwide that have adopted the technology for research and quick growth of ultrafast laser tools technology. However, lack of awareness and high cost of technology are the factors limiting the market growth.
