Vision Machinery was started in 2009 by Lonnie Campbell with the goal of providing the most advanced solutions to an ever changing manufacturing environment. "While many companies are hanging on to the ideas and technology of the past, Vision Machinery has had the foresight to recognize the rapid change in manufacturing needs," Owner Lonnie Campbell says. "Wood product manufacturers may need to start fabricating with stone or glass. Companies may now want to bring aluminum in house. Plastic companies are evolving into composites and more. We have solutions for all these materials and whatever else the future may bring!" he says.
