

# Marcia McCollum Hebrank (“Moon”) of One Light Center to be Featured on CUTV News Radio

DURHAM, NORTH CAROLINA, UNITED STATES, May 8, 2017 /EINPresswire.com/ -- Marcia McCollum Hebrank (“Moon”) is the founder of One Light Center, a comprehensive energetic and spiritual healing center dedicated to restoring clients to the vibrant, happy, healthy lives they were meant to live. As a Master Angel Therapist®, spiritual counselor and core shamanic practitioner, Moon works with your Angels, guides & teachers, as well as her own, to bring healing and loving guidance that will absolutely transform your life.. Her work is spiritually guided at every step, and is based upon the core belief in the inherent Divinity that exists within all living beings.

“This beautiful work of spiritual healing is a way to delve into the Great Mystery, where we receive the help and support that we need in order to succeed in our lives,” says Moon. “The Angels are extensions of God, and they are present with each and every one of us. It is their absolute joy to assist us, but with rare exceptions, we must ask for the help of the Angels in order to receive it.”

Moon says she’s always been connected to God and the Angels since she was a little girl.

“I would sit out on a blanket by myself out in the Midwest and connect with Spirit. I was meditating back then, without actually knowing what meditation was,” recalls Moon. “My family seemed to know something was different about me. My intuition was quite strong. My elderly grandmother sat me down when I was a young child and told me about my intuitive gifts, which run in the maternal line in my family. She told me that these gifts were sacred, and were only to be used for good. I am grateful to this day that she took the time to explain to me how precious these abilities are, and the potential for good that could come from them. My grandmother gave me permission to use my gifts.”

Originally trained as a psychotherapist, Moon says she first became interested in Angelic and shamanic healing while caring for her ailing mother.

“That’s when I realized that there was a great mystery here, something we can’t ordinarily know about that is quite wonderful and profound,” says Moon. “I was able to be with my mother when she transitioned, and both she and I were beautifully supported by the Angels. It became very clear to me that this is the work I should ultimately be doing full-time. The Universe has supported me in making this career change, and I absolutely love it!”

In addition to providing support and guidance, Moon helps her clients release old negative patterns and tendencies that have been holding them back in their lives. Moon and her husband also teach classes in Angel Intuition and Healing, Core Shamanism, and Angel Card Reading. Moon also teaches Reiki, Archangelic Light Healing, and Crystal Healing.

“I’m very proud of our students,” says Moon. “I’ve had more time to teach the past several years, and I see our students taking the skills they’ve learned out into their communities, putting them to use in their lives and in their own healing practices, and it’s just wonderful.”
