

Wi-Fi as a Service Market to Reach \$1.08 Billion With 35.1% CAGR Forecast To 2022

Wi-Fi as a Service -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022

PUNE , MAHARASHTRA, INDIA, May 8, 2017 /EINPresswire.com/ -- [Wi-Fi as a Service](#) Industry

Description

According to Statistics MRC, the Global Wi-Fi as a Service Market is accounted for \$1.08 billion in 2015 and expected to grow at a CAGR of 35.1% to reach \$8.88 billion by 2022. Factors such as low capital cost, adoption for centralized management and remote troubleshooting and faster deployment will boost the market growth. However, concerns regarding cloud connectivity & security issues and lack of skilled personnel will hamper the market growth. Proliferation of BYOD and enterprise mobility will provide ample opportunity for the market to grow.

The outdoor user segment is witnessing highest growth rate during the forecast period. Indoor user location segment is accounted for largest market share due to large number of deployments in the education institutions and retail mall. The Small and Medium Enterprises (SMEs) segment will be growing with the highest share during the forecast period. The transportation and logistics end user segment is witnessed to grow as significant services of Wi-Fi for transportation are provided. North America commanded the largest market share as many companies are investing capital in cloud-based solutions. Asia Pacific is the fastest growing market due to increasing insistence for Wi-Fi services.
