

Push Operations Launches A Restaurant Workforce Employee Onboarding App

Automation of employee onboarding optimizes labour, and centralizes employee data into a single platform.

VANCOUVER, BRITISH COLUMBIA, CANADA, May 8, 2017 /EINPresswire.com/ -- [Push Operations](#), an innovative restaurant workforce management software provider, is proud to announce the launch of its restaurant workforce employee onboarding app. This new app allows restaurants to streamline new hires onto Push's [Restaurant Workforce Software](#).

Key Features of Push Operations' Employee Onboarding App include:

1. Digitized employee contracts, tax forms, confidentiality agreements, void cheques etc.
 - The app optimizes the process of onboarding new hires. It eliminates the process important documents being physically exchanged from employer to employee and vice versa.
2. Employee allowance to enter in their key personal information to their profile for review.
 - Submitting key personal information is made even easier with Push's self serve method. Employees are able to submit their data via desktop, tablet, or mobile phone. Employee data is streamlined and stored in a secure cloud based system that is easily accessible anytime
3. Allowance of managers to complete key information such as hire date, salary etc.
 - New hires are responsible for submitting their own data, and employers know exactly where to find it.

Creating an effortless hiring process for both employers and new hires, the app maximizes the functionality of Push Operations workforce management software.
