

# Stockpile Reports named to Asphalt Contractor Top 30 Editor's Choice Awards for 2017

*With their unique approach to inventory management of stockpiled materials, Stockpile Reports wins Innovation award.*

REDMOND, WA, UNITED STATES, May 9, 2017 /EINPresswire.com/ -- Today, Asphalt Contractor, the nationally recognized equipment magazine serving commercial asphalt producers and contractors, has selected [Stockpile Reports](#) as one of the preferred construction products of 2017!

Stockpile Reports was chosen as an award winner for the 2017 Top 30 Editor's Choice Awards by the Asphalt Contractor editorial staff for meeting a set of criteria including longevity and consistency in the market, dependability, productivity and innovation. To gauge the audience's preferences, they also factored in how much interest these products received on the Buyer's Guide at [ForConstructionPros.com/Asphalt](#).

Asphalt industry executives are able to bring an end to fluctuating financials, scaling physical inventory counts across the entire company. In addition to drones and airplanes, Stockpile Reports is the only offering in the market that has an iPhone app for measuring stockpiles from the ground. This enables companies to distribute the load of doing inventory to their entire team, decreasing the amount of time it takes to perform physical inventory counts. When customers combine the iPhone app approach with aerial-based measurements, they've seen a 10x reduction in the time it takes to perform an inventory count, with a 4x reduction in cost. Sixteen of Stockpile Reports top 20 customers are using this full mix of measurement types across the largely dispersed locations they operate.

"Equipment is the lifeblood of our readers' businesses \_ the right equipment choices can mean the difference between a profit or a loss on a project," says Amy Schwandt, Asphalt Contractor group publisher.

Asphalt Contractor Editor Lisa Cleaver continued, "On today's road building projects, asphalt contractors need to possess every advantage they can. Having the best equipment in their fleets and tools in their toolboxes make them more competitive. This year's Top 30 Editor's Choice Awards reflect those products that have the ability to add profits and increase productivity. The list also includes some exciting new introductions which offer the latest innovations. To honor those products which achieve these ideals, we offer this year's Top 30 Editor's Choice Awards."

Additional information on award recipients can be found in the May issue of Asphalt Contractor and online at [ForConstructionPros.com](#).

Construction professionals can follow asphalt construction news via Twitter and Facebook.

Stockpile Reports is based in Redmond, WA and has offices in Oregon, Texas, Georgia, and North Carolina. It is used by hundreds of companies at nearly 3,000 locations in 25 countries around the world.
