PLEASANTON, CALIFORNIA, UNITED STATES, May 9, 2017

/EINPresswire.com/ -- At Citrusbits, we offer clients years of experience and a proven track record to success. We love what we do, which makes it easy to take your vision and turn it into a reality. We've been working to innovate and give you the best user experience possible for almost a decade, which is why we are thrilled to announce that we have been named a Top San Francisco Custom Software Development Company in Clutch's annual research. With our breadth of services, we have also been acknowledged as a Top San Francisco [Mobile App Development](#) Company.

Clutch is a ratings and reviews firm based in Washington, D.C. covering companies in San Francisco and around the world. Their work examines thousands of companies based on their market presence, previous work, and proven ability to deliver excellence to their clients. Most importantly, the Clutch team speaks directly with clients to conduct reviews to hear first-hand how each firm performs.

One of our recent five-star reviews from Greg Tosian, Owner of Subliminal Vision Boards, helped us to get where we are today on Clutch:

“What distinguished Citrusbits was their determination and willingness to take on a project that no one else wanted. Everyone said that it couldn't be done, and Citrusbits managed to find a way to make it happen. I had interviewed quite a few other companies, and they weren't ready to take on a challenge like this. ... They were also very detailed, and it was nice working with them. They called us up any time they had questions. I was impressed with all that they've done. To this day, if we need anything, they're right there and take care of it – no questions asked.”

We are proud to be featured alongside so many prominent companies in the Bay Area, and can't wait to improve to #1 next year!
