

Magnetic Materials 2017 Global Market Expected To Grow At CAGR 9.10% And Forecast To 2021

The analysts forecast the global magnetic materials market to grow at a CAGR of 9.10% during the period 2017-2021.

PUNE, INDIA, May 9, 2017 /EINPresswire.com/ --

[Global Magnetic Materials Market](#)

Description

Magnetic materials are those materials that either inherently possess magnetic properties or can be magnetized using an external magnetic field. Magnetic materials can be broadly categorized into hard and soft magnetic materials. The applications of magnetic materials include automotive and transportation, electronics and instrumentation, industrial applications, energy generation, medical equipment, defense, and information technology. Magnetic materials have natural magnetic properties and are used for creating a magnetic field. The magnetic field produced has the capacity to attract other ferromagnetic materials.

Covered in this report

The report covers the present scenario and the growth prospects of the global magnetic materials market for 2017-2021. To calculate the market size, the report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

Get Sample Report @ <https://www.wiseguyreports.com/sample-request/1254675-global-magnetic-materials-market-2017-2021>

The market is divided into the following segments based on geography:

- APAC
- Europe
- North America
- ROW

The Global Magnetic Materials Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key

vendors operating in this market.

Key vendors

- Arnold Magnetic Technologies
- Daido Steel
- Hitachi Metals
- Lynas Corporation
- TDK Corporation

Other prominent vendors

- Adams Magnetic Products
- A.K. Steel Holding Corporation
- BGRIMM Magnetic Materials & Technology
- Dexter Magnetic Technologies
- Dura Magnetics
- Electron Energy Corporation
- GKN Sinter Metals
- Hengdian Group DMEGC Magnetics
- Neo
- Ningbo Vastsky Magnet
- Shin-Etsu Chemical
- Sintex
- Steward Advanced Materials
- Tengam Engineering
- Toshiba Materials
- VACUUMSCHMELZE
- Zhejiang Kaiven Magnet Company

Market driver

- Increase in demand from automotive and transportation, and energy generation segments.
- For a full, detailed list, view our report

Market challenge

- Scarcity and disproportionate availability of rare-earth metals.
- For a full, detailed list, view our report

Market trend

- Increased use of amorphous and nanocrystalline magnetic materials.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Complete Report Details @ <https://www.wiseguyreports.com/reports/1254675-global-magnetic-materials-market-2017-2021>

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Overview

PART 06: Market overview

- Market segmentation
- Global magnetic materials market
- Global customer base concentration
- Five forces analysis

PART 07: Market segmentation by product type

- Global magnetic materials market by product type
- Global magnetic materials market by hard magnetic materials
- Global magnetic materials market by soft magnetic materials

PART 08: Market segmentation by application

- Global magnetic materials market by application
- Global magnetic materials market in automotive and transportation application
- Global magnetic materials market in electronics and instrumentation application
- Global magnetic materials market in industrial application
- Global magnetic materials market in energy generation application
- Global magnetic materials market in other applications

PART 09: Geographic segmentation

- Global magnetic materials market by geography
- Magnetic materials market in APAC
- Magnetic materials market in North America
- Magnetic materials market in Europe
- Magnetic materials market in ROW

PART 10: Key leading countries

PART 11: Decision framework

PART 12: Drivers and challenges

- Market drivers
- Impact of drivers on key geography
- Market challenges
- Impact of challenges on key geography

PART 13: Market trends

- Innovations and improved technologies
- Growth in consumption of consumer electronics and medical devices
- Increased use of amorphous and nanocrystalline magnetic materials

PART 14: Vendor landscape

- Competitive scenario
- Arnold Magnetic Technologies
- Daido Steel
- Hitachi Metals

- Lynas Corporation
- TDK Corporation
- Other prominent vendors
