

E-Health Market Expected To Reach \$285.57 billion By 2022 With CAGR of 16.2%

E-Health -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022

PUNE , MAHARASHTRA, INDIA, May 9, 2017 /EINPresswire.com/ -- [E-Health](#) Industry

Description

According to Statistics MRC, the Global E-Health Market is accounted for \$99.35 billion in 2015 and is expected to reach \$285.57 billion by 2022 growing at a CAGR of 16.2% during the forecast period. Factors such as growing occurrence of chronic diseases and technological advancements are favouring the market growth. However, increasing privacy concerns and growing demand for the safe infrastructure of data confidentiality are hampering the market.

Healthcare providers segment held a substantial share in 2014, as e-Health offers great convenience to healthcare professionals in terms of patient work flow and data management. North America commanded the market attributed to the availability of supportive infrastructure such as high-speed internet. Asia-Pacific is expected to witness lucrative growth during the forecast period owing to increasing government support to improve healthcare infrastructure.
