Description

Wiseguyreports.Com Adds “Intelligent Emergency Response System and Infrastructure -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022” To Its Research Database

According to Statistics MRC, the Intelligent Emergency Response System and Infrastructure Market is estimated at \$66.58 million in 2015 and is expected to reach \$115.23 million by 2022 growing at a CAGR of 8.1% from 2015 to 2022. Favourable government regulations, growing awareness among people and increasing acceptance of intelligent emergency response system in mining projects are some key factors fueling the market. However, factors restraining the market growth include limited awareness among developing regions and high installation costs. In addition, providing a new intelligent emergency response solution, depending on different threat concerns in different regions will be a good opportunity for manufacturers to target in coming years.

Amongst Systems, video surveillance system segment is anticipated to dominate the global market and infrastructure. Moreover, perimeter intrusion detection type segment is expected to exhibit high CAGR. North America commanded the highest market share followed by Europe and Asia-Pacific.
