

TMC Recognizes Hubgets with the 2017 Unified Communications Product of the Year Award

Hubgets Honored for Boosting Business Productivity through Instant Communication

WILMINGTON, DELAWARE, UNITED STATES, May 9, 2017 /EINPresswire.com/ -- Hubgets Inc. announced today that TMC, a global, integrated media company helping clients build communities in print, in person and online, has presented the 2017 Unified Communications Product of the Year Award to Hubgets, the instant communication and collaboration platform that makes businesses more productive.

Hubgets enables teams to connect, bond, and collaborate in real-time with more focus and less noise. The instant collaboration platform, available as a service and in the private cloud, offers one-to-one instant messaging and group chat with file transfer and screen sharing, voice and video calls, interactive boards with media support, presence, status and mood features, advanced business telephony like IVRs, conferencing, agents and call center functionality. Team members have full visibility over the communication flows, which are automatically centralized and instantly searchable. Designed to help teams gain focus, the platform uses intelligent algorithms to reduce distractions and relieve frustration.

"Most teams want to be productive, but business structures and processes often get in the way, eating up valuable work time and preventing team members from getting things done. Hubgets simplifies team and customer communication, and lets information flow easily among team members. Relieved from the burden of excessive emails and redundant meetings, people work with first hand information and focus on actionable results. Instant communication is collaboration," said Hubgets COO and Co-founder, Elena Carstoiu.

"It gives me great pleasure to honor Hubgets Inc. as a 2017 recipient of TMC's Unified Communications Product of the Year Award for their innovative product, Hubgets," said Rich Tehrani, CEO, TMC. "Our judges were very impressed with the ingenuity and excellence displayed by Hubgets Inc. in their groundbreaking work on Hubgets."

With [Page by Hubgets](#), the platform redefines the concept of business communication and simplifies workflows. This digital business card available for each team member enables instant contact with partners, leads, and customers through secure chat with file transfer, voice, and video in the browser. Team members communicate without exposing personal information such as email address or phone number. Partners and customers do not need a Hubgets account or a specific piece of software to establish contact. Hubgets automatically stores and converges both internal and business communication, building a knowledge center that team members can instantly access and learn from.

The platform delivers [instant communication and collaboration to teams of all sizes](#), and is free for those with up to 20 members. Startups, SMBs, and enterprises have access to customized service plans to support their team dynamics and business needs. Special licensing for Service Providers is also available.

Winners of the 2017 Unified Communications Product of the Year Award are announced online and highlighted in INTERNET TELEPHONY magazine.

About Hubgets

Hubgets is an instant communication platform that makes businesses more productive. It enables people to communicate via chat with file transfer and screen sharing, voice, and video, turning work experience into searchable knowledge.

Hubgets uses artificial intelligence to measure people's mood at work and adjusts communication flows on the individual level to reduce frustration and make the entire team more productive.

Page by Hubgets is a web business card available for each Hubgets user. Contacting the card owner is as simple as browsing the web - chat, voice and video instant communication is available for free, in the browser. With Page, Hubgets users don't need to give out their phone number to be reached by business partners or customers.
