

Dental Professionals Bring High Tech Smiles to New England

PORTLAND, ME, UNITED STATES, May 9, 2017 /EINPresswire.com/ -- New England Regional Seattle Study Club Meeting (NERSSC) May 19-21st brings together the top dental professionals throughout New England to learn the latest advancements and techniques. This year, renowned speakers Dr. Christian Coachman, CDT, DDS and Ashley Koff, RD will present the latest in patient-centric [Dental Smile Design](#) and [Better Nutrition](#).

“Attendees at the New England Regional Seattle Study Club Symposium are highly motivated and successful individuals, who want to be leaders in their field, want to be on the cutting edge of technology, and want the very best for themselves and their patients,” states Dr. Peter Then, DMD co-founder of the Casco Bay Study Club, a Seattle Study Club based in Portland, ME.

“One of the biggest benefits of NERSSC is sharing ideas and discussing treatment concepts with your peers to continually develop professional skills.”

Registration is open for the [7th bi-annual New England Regional Seattle Study Club Symposium](#) Friday and Saturday May 19-20, 2017 at the Wentworth by the Sea in New Castle, New Hampshire. The meeting is open to Seattle Study Club members and non-members. Dentists who attend all three days can achieve Digital Smile Design certification - presenting a new face of dentistry that is more human, emotional, and artistic; and more efficient and precise through state-of-the-art technology.

“Periodontal disease, systemic connections, treatment options and patient compliance continue to be a much discussed topics within dentistry,” continues Dr. Peter Then. “Connecting with other dentists throughout New England lets us share real experiences with treatment approaches. We recently added LANAP laser gum disease treatment. A key factor in this decision was the feedback from our peers who have incorporated the technology. The benefits of attending NERSSC go beyond the educational program. There simply is no better way to network and receive honest clinical feedback about what is working, than by attending.”
