Typical federal jobs in Georgia where a company could easily falsely portray themselves as a minority or woman owned business:

- \* A road or highway builder
- \* Almost any imaginable type of company providing services to the Department of Defense (note there are 13 US Military Bases in Georgia)
- \* A company providing food services through a Department of Agriculture, a GSA or HHS contract
- \* An engineering or an architectural firm based in Georgia
- \* A logistics or trucking company based in Georgia

\* A company providing moving or storage services in Georgia to the Department of Defense or the General Services Administration.

According to the Center, "If a company has falsely portrayed themselves as minority or women owned to get a leg up on bidding for federal contracts-the employees typically know it-especially in a state like Georgia. If you possess this type of information about your employer please call us anytime at 866-714-6466 and let's explore what you can prove and what the whistleblower reward potential might be. Why sit on a potentially winning lotto ticket without ever knowing what it might have been worth?"

Simple rules for a whistleblower from the Georgia Corporate Whistleblower Center: Do not go to the government first if you are a potential whistleblower with substantial proof of wrongdoing. The Georgia Corporate Whistleblower Center says, "Major whistleblowers frequently go to the government thinking they will help. It's a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower's information could destroy any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant Medicare fraud, overbilling the federal government for services never rendered, multi-million-dollar state or federal tax evasion, or a Georgia based company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded."

Unlike any group in the US the Corporate Whistleblower Center can assist a potential whistleblower with packaging or building out their information to potentially increase the reward potential. They will also provide the whistleblower with access to some of the most skilled whistleblower attorneys in the nation.
