

Inside 3D Printing Seoul unveils the New Era of Digital Manufacturing

KINTEX holds the 4th Inside 3D Printing Conference & Expo with Rising Media, 3DR Holdings on June 28-30, 2017 in Seoul, South Korea.

SEOUL, ILLSANSEO-GU, SOUTH KOREA, May 11, 2017

/EINPresswire.com/ -- South Korea has become one of the hottest places in 3D printing industry.

Last month, the ministry of Science, ICT and Future Planning announced to invest KRW 41.2 billion (approximately, USD 37 million) to boost Korea's 3D Printing industry in 2017. The director general of the ministry said that financial resources would be spent primarily on bio printing, 3D software and material development, which are essential in this sector.

There is another reason why you must visit Seoul, South Korea this coming June if you are involved in 3D printing or new technologies as Robotics, Drones, VR and AR. [Korea International Exhibition Center \(KINTEX\)](#) holds the 4th annual [Inside 3D Printing Conference & Expo](#) with [Rising media](#), Inc., and 3DR Holdings on June 28-30, 2017 in Seoul, South Korea.

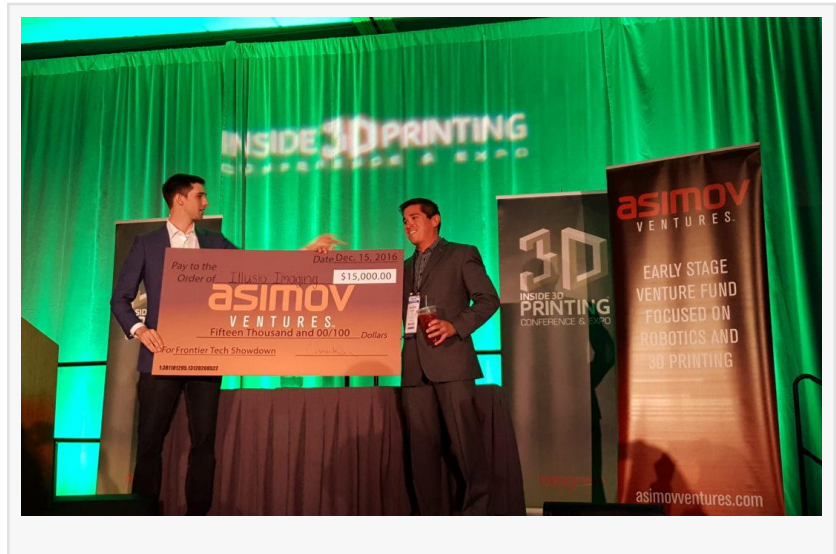

Inside 3D Printing is the largest 3D printing event series worldwide, having hosted 38 events globally since its launch in 2013 in New York City. Over 9,000 attendees are expected at this year's event in Seoul. The theme for this year's event is 'The New Era of Digital Manufacturing'.

As shown in the theme of the event, the exhibit category has been widened from 3D printers to 3D scanners, CNC milling machine, CAD/CAM/CAE software, metrology, reverse engineering, post

processing and materials.

This year's exhibition is expected to attract over 70+ exhibitors including global corporations such as EOS, MakerBot, German Reprap, XYZ Printing, MSC Software as well as major Korean additive manufacture players as ZWCAD Korea, 3D Box, Motion Works and Owl Works 3D. The connections made at Inside 3D Printing Seoul 2016 resulted in over 120 contracts signed worth USD \$80 million within 6 months after the show.

For the conference, Inside 3D Printing boasts its glamorous 2017 speaker lineup. With the opening keynote speech by Omer Krieger, President, Stratasys APAC and Japan, the Conference will be held on June 28-29, 2017 with 35+ world-class speakers from Autodesk, Stratasys, 3D Systems, EOS, Arcam and Dassault Systemes. The topics will focus on manufacturing, metal, business and aerospace/automotive industry.

In addition, premier pitch event (Frontier Tech Showdown) for seed-stage startups in 3D Printing, Robotics and Virtual Reality takes place on June 28. Asimov Ventures will present the winner of this year in Seoul with an uncapped SAFE for USD 5,000. If interested in applying, you can send 5-min-long pitch deck to startupsk@risingmedia.com.

There are multiple co-located events including Robo Universe, Virtual Reality Summit and LED/OLED Expo during the same period. Expo Pass holders of Inside 3D Printing Conference & Expo can access to exhibit hall of concurrent events without extra charges.

If interested in participating in Seoul event, please register yourself before the event so that you may take full advantage of pre-registration discounts rate of up to 20%. For sponsorships or startup pitch event, please contact Inside 3D Printing Secretariat (inside3dprinting@kintex.com) or visit the official website (www.inside3dprinting.com/seoul).
