Description

Wiseguyreports.Com Adds “Air Data Systems -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022” To Its Research Database

According to Statistics MRC, the Global Air Data Systems market is accounted for \$548.7 million in 2015 and is expected to reach \$850.9 million by 2022 growing at a CAGR of 6.4% from 2015 to 2022. Factors such as demand for large military UAVs, demand for narrow body aircraft, technological advancement in Air Data computers are driving the market growth. However, long life cycle of aircraft flight control system and high cost associated with new technology are impeding the market growth. Introduction of advanced ads in fighter aircraft, growth in international tourism and emergence of aircraft manufacturers in Asia-Pacific and Latin America are providing diverse opportunities for the market to proliferate.

The UAV segment is projected to grow at the highest CAGR during the forecast period. The electronic unit segment is the highest growing market because of wider use in avionics systems. North America is projected to lead the Air Data Systems market due to growing military programs for fighter jets.
