

Voxvalley to showcase its solutions for Telecom Operators, VOIP Providers and OTT Players at ITW 2017

CHICAGO, UNITED STATES, SINGAPORE, May 10, 2017 /EINPresswire.com/ -- [Voxvalley](#) Pte Ltd, a Singapore-based [VOIP](#) solutions company today announced that it is attending International Telecoms Week 2017 (ITW 2017) happening at Purple Level, East Tower, Hyatt Regency & Swissotel, Chicago IL from 14-17 May 2017. The Voxvalley team is at Booth #716 in the exhibitors' area and is displaying its solutions for [Telecom](#) Operators, MVNO, VOIP Providers, and OTT Players.

ITW 2017 is the annual meeting for the global wholesale telecoms industry, providing a platform for 6771 delegates from 1989 companies and more than 140 countries to meet and network. Voxvalley is part of this prestigious week and looks forward to interacting with all like-minded people at the event. You can set up a meeting with us in advance at the following link <http://events.Voxvalley.com/set-an-appointment/?cf=itw-2017>

Mr. Sajjan Mallik, Founder, MD & CEO of Voxvalley said, "We are happy to be a part of the mega telecom event which provides a lifetime opportunity to network with the telecom fraternity across the globe. Voxvalley takes this opportunity to showcase its cost effective, innovative, highly secure solutions built on international standards for Telecom Operators, VOIP Providers, and OTT players".

Voxvalley has an end to end solution for Telecom Operators that enables them to switch over to data-centric services, expand product line and markets through Residential VOIP, Business VOIP, Prepaid VOIP and calling cards. The solutions cover a comprehensive VoIP package, SIP redirection, and unified communications. It also provides data based value added services for Telecoms like international money remittances, mobile wallets, etc.

Voxvalley offers a VoIP solution through which VoIP operators can deliver all the advanced features needed for a successful mobile VoIP service. The prepaid VoIP solution leverages Voxvalley all-in-one soft switch platform to provide the prepaid VoIP services and all the supporting back-office services. Voxvalley mobile VoIP solution enables service providers to deliver Calling Cards, PIN-less, Mobile PIN-less Dialers, and International Mobile Top-Up services to their end-users. It facilitates the back-end functions such as routing, billing, monitoring, reporting, carrier management, DID management, PIN recharge, PIN code generation, and PIN authorization.

Voxvalley offers comprehensive mobile OTT solutions that enable OTT Players to deliver feature-rich services by white labeling Voxvalley advance VOIP calling app. With this app, one can call mobiles and landlines around the world, make high-quality audio/video calls and enjoy seamless calling experience, instant messaging, file sharing, sending photos, videos, voice messages, contacts and stay connected all the time. Value added services like transferring amount from one account to another, recharging on the go and so on to make it a viable option.

It is an exciting moment for the team representing Voxvalley at the ITW 2017 to showcase the solutions for the fifth consecutive time. Voxvalley has been part of all the editions of ITW since 2013. We look forward to meeting you at ITW 2017.
