

Diesel Common Rail Injection System Market, Top Manufacturers, Industry Growth Analysis and Forecast to 2022

Global Diesel Common Rail Injection System Market by Type (Engine Oil, Grease), Vehicle Type (Commercial) and Region (North America, Europe) – Forecast to 2022

PUNE, MAHARASHTRA, INDIA, May 10, 2017 /EINPresswire.com/ -- Market

Research Future published a Half Cooked Research Report (HCRR) on Global [Diesel Common Rail Injection System Market](#).

“We enable our customers to unravel the complexity.”

Market Research Future

Market Overview:

The growth of Global Diesel Common Rail Injection System Market is greatly influenced by rising demand of passenger cars and LCV. The recent technological developments have fostered the demand of fuel efficient vehicles. During the forecasted period, EMEA is estimated to have a large share of consumption. The major driver being stringency in the government regulatory emission norms.

The Growth of the Diesel Common Rail Injection System can be attributed to the increasing regulatory norms by the governments across the globe. The stringency in the emission norms compelled the manufacturers to explore different technology improving the diesel combustion process by reducing the vehicle emission complying with the fuel economy standards. Another key factor for the growth of diesel common rail injection system is that it increases fuel efficiency and power of vehicles by mitigating fuel losses during combustion process. But, the absence of after-market is the major restraint of diesel common rail injection system market.

Major Key Players:

- Denso Corporation,
- Robert Bosch GmbH,
- Federal Mogul,
- Ganser,
- Hyundai KEFICO,
- Delphi Co.,
- Continental AG,
- Siemens Deka Inc.,
- Woodward Co.,
- Eaton.

Access the market data and market information presented through more than 50 market data tables and 25 figures spread over 100 numbers of pages of the project report “Diesel Common Rail Injection System Market – Forecast to 2022”

Market Research Analysis:

The countries in the Europe region such as U.K have the largest market share of diesel vehicles. It accounts for around 50% of the total market share of vehicles.

- On the basis of Vehicle, LCV is the largest segment and acquires around 40% of the market share. Recent technological developments have raised the demand in the market.
- On the basis of Fuel Injector Type, piezoelectric is more sought compared to conventional solenoid injectors. The piezoelectric are less noisy and have reduced smoke emission.
- On the basis of Region, EMEA dominates the market owing to the presence of high no. of diesel vehicles in the region which is boosting to develop advanced technologies in direct common rail system market.

Scope of the report

This study provides an overview of The Global Diesel Common Rail Injection System industry, tracking two market segments across five geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific, South America and Middle-East and Africa. The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the Global Diesel Common Rail Injection System market. On the basis of Vehicle type it is segmented as Passenger Car, LCV, and HCV. On the basis of fuel injectors it is segmented as Solenoid and Piezoelectric. On the basis of Region, it is segmented as North America, APAC, Europe, South America and Middle East & Africa.

Target Audience

- Manufactures
- Raw Materials Suppliers
- Aftermarket suppliers
- Research Institute / Education Institute
- Potential Investors
- Key executive (CEO and COO) and strategy growth manager

About Market Research Future

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our

clients to see more, know more, and do more, which help to answer all their most important questions.
