

Global Aircraft Electric Taxiing Systems Market to Grow at a CAGR of 10.26% During the Period 2017-2021

Orbis Research has added Latest Research Report on "Global Aircraft Electric Taxiing Systems Market 2017-2021" to its Database.

DALLAS, TEXAS, UNITED STATES, May 11, 2017 /EINPresswire.com/ -- About [Aircraft Electric Taxiing Systems](#), The global commercial aviation industry is gradually moving toward developing and adopting economically and environmentally sustainable models of aircraft. This implies minimizing the combustion of jet fuel and driving these operations with alternate energy resources. Aircraft taxiing is one such operation, which is being investigated by researchers globally to adopt sustainable ways to avoid engaging the main engines and thus, bring down fuel consumption. Stakeholders were gradually progressing toward the development, but the steep fall in the oil prices discouraged potential stakeholders to invest in new technology. Expects the market to generate revenue from 2018 when few alternate taxiing systems will be commercialized.

Analysts forecast the Global Aircraft Electric Taxiing Systems Market to Grow at a CAGR of 10.26% During the Period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global aircraft electric taxiing systems market for 2017-2021. To calculate the market size, the report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Global Aircraft Electric Taxiing Systems Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Market driver

- Growing demand for eTaxi solutions.

Market challenge

- Challenges due to increase in overall weight.

Market trend

- Emergence of zero-emissions hydrogen fuel cell technology.

Key questions answered in this report

What will the market size be in 2021 and what will the growth rate be?

What are the key market trends?

What is driving this market?

What are the challenges to market growth?

Who are the key vendors in this market space?

What are the market opportunities and threats faced by the key vendors?

What are the strengths and weaknesses of the key vendors?
