

Critical Training Addresses Serious Issues of Infections During Healthcare Construction

Learn to Protect Workers and Clients, as well as Patient Populations, Staff and Visitors

ORLANDO, FL, USA, May 12, 2017 /EINPresswire.com/ -- Education and training play a key role in limiting the problems with health care construction projects. The Linders Health Institute is conducting an important and crucial two day boot camp, THE FUNDAMENTALS OF INFECTION CONTROL IN THE ENVIRONMENT OF CARE FOR HEALTHCARE CONTRACTORS, to help professionals involved in healthcare facility and renovation construction projects know infection control risk assessment (ICRA) and understand the special precautions needed to keep patients safe.

Reduction of risk from infection is urgent in the fight for patient safety, client retention, and reduction of legal risks. Unfortunately every construction, renovation or repair project is unique with its own challenges and variables that could challenge infection control protocols. Healthcare settings are complicated with vulnerable patient populations. Infection control is mandatory and a priority.

Infection control is an issue as 5,000 – 7,000 patients die each year from healthcare construction related cross contamination including dust, debris, and potentially hazardous fungal spores that are stirred by construction projects. This important course will help builders or anyone else involved in healthcare construction understand infection control issues as they relate to healthcare facilities as well as understand compliance requirements for Joint Commission and DNV during construction.

Register today for this important and crucial two day boot camp, THE FUNDAMENTALS OF INFECTION CONTROL IN THE ENVIRONMENT OF CARE FOR HEALTHCARE CONTRACTORS. The boot camp will be held on July 27 and 28, from 9-5 both days, in Orlando Florida. Register before May 15 to receive an early bird discount of \$1350 pp. For anyone who registers after May 15 the cost is \$1500 pp. Call (844) 438-4272 OR EMAIL info@thelindershealthinstitute.com FOR REGISTRATION FORM.

The boot camp is for Architects, CIHs, Mechanical Engineers, Electrical and General Contractors, Remediation and Disaster Recovery contractors, HVAC, Architects, Mechanical Consultants, Project Managers, LEED professionals, RNs, FMs, Property Managers, CMs, PMs, Superintendents, Executive Management, Business Development and Engineers.

Accreditation for the course is from Critical Facilities Health Care (CFHC) and includes wet OR's, TJC, as well as CMS new requirements for emergency preparedness and bloodborne pathogens. Students will receive training of 15 Hour(s) | LU AIA (HSW) 1 CE LEED/GBCI 1.5CM CIHs .5 IICRC. The course methodology is a Presentation with PPT. handouts and interactive exercises. Students will be evaluated through questions and answers, and a post test.

About The Linders Health Institute™: The Linders Health Institute™ was founded by Executive Director Marlene Linders and is dedicated to keeping patients safe during healthcare construction projects, through education and trainings. It offers courses, training, and accreditation programs to the AEC (architects, engineers, contractors) IAQ, and the healthcare industry. The programs address safety, compliance and exposure risks during construction of healthcare buildings and the built

environment. They're designed to make healthcare construction activities safer, while ensuring of compliance standards mandated by key organizations. The Linders Health Institute™ has been recognized globally and it is a partner of the Florida Hospital College of Health Sciences. Many courses are accredited by the USGBC and the American Institute of Architects.

Ms. Linders holds degrees in Architecture and Nursing Science, as well as a Master's Degree in Science. She has several years of extensive expertise in development and understanding of construction and design for building systems. She is a published author for the ASHRAE Journal and Long Term Care.
