QUICK FACTS MISSISSIPPI Energy

§ The Gulf Liquefied Natural Gas terminal at Pascagoula, Mississippi was designed to send imported natural gas by pipeline to users throughout the South. Because of changing market conditions, plans to add liquefaction and export capabilities are being pursued.

§ As of January 2015, the Pascagoula oil refinery is the 11th-largest refinery by capacity in the United States. The Pascagoula refinery processes about 330,000 barrels of crude oil per calendar day.

§ The 1,443 megawatt Grand Gulf Nuclear Station, near Port Gibson along the Mississippi River, is the largest single-unit nuclear power plant in the nation. In 2015, it generated 18% of Mississippi's electricity.

§ Mississippi's one ethanol plant can produce 54 million gallons of biofuel annually, equal to 0.34% of total U.S. ethanol production capacity.

§ Mississippi generated nearly 2.3% of its electricity from renewable energy resources during 2015, with wood and wood waste accounting for almost all of the state's renewable electricity generation.

Vital Mesothelioma Compensation Tip for a Power or Energy Worker in Mississippi from the Mississippi Mesothelioma Victims Center: "We are urging a power or energy worker in Mississippi with mesothelioma to call us anytime at 800-714-0303 for spot access to some of the nation's top mesothelioma attorneys who will be able to tell you what your potential financial compensation could be. Please don't settle for less."

For the best possible mesothelioma treatment options in Mississippi the Mississippi Mesothelioma Victims Center strongly recommends the following health care facility with the offer to help a diagnosed victim, or their family get to the right physicians at this hospital:

\* University of Mississippi Medical Center Jackson, Mississippi: <https://www.umc.edu/cancerinstitute/>

\* The MD Anderson Cancer Clinic Houston, Texas. Note the MD Anderson Cancer Clinic might be one the best places in the world to be treated for mesothelioma.

The Mississippi Mesothelioma Victims Center's initiative is a service available to any diagnosed victim of mesothelioma throughout Mississippi in every community such as Jackson, Gulfport, Southaven, Hattiesburg, Biloxi, and Tupelo. <http://Mississippi.MesotheliomaVictimsCenter.Com>

The average age for a diagnosed victim of mesothelioma is about 72 years old. This year between 2500, and 3000 US citizens will be diagnosed with mesothelioma. Mesothelioma is a rare form of cancer that is attributable to exposure to asbestos.

The states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. However, mesothelioma does happen in Mississippi.

For more information about mesothelioma please refer to the National Institutes of Health's web site related to this rare form of cancer: <http://www.nlm.nih.gov/medlineplus/mesothelioma.html>
