

Hand Held search pole kit

Inspectacam obsoletes search mirrors

MIRAMAR, FLORIDA, USA, May 16, 2017 /EINPresswire.com/ --

INSPECTACAM Obsoletes [search](#) mirrors!

Sas R & D Services world leaders in [Contraband](#) Search equipment, have completed development of a lightweight compact search system for looking under vehicles, examining tops of freight containers able to search drains/underground pipes. Also may be used for SWAT and surveillance. The lightweight Inspectacam has an extending handle, with a daylight/Infrared High Definition Camera displaying the inspected area, meanwhile recording the image for training or evidence purposes. The removable and inter-changeable monitor offers 10 x zoom, as well as recording of verbal comments. Folding to a small size, this unit is designed for quick and easy inspections and searches. The price is in line with under-vehicle illuminated search mirrors. Manufactured in the USA, this search equipment is rugged and simple to use. A Thermal Camera option is also available.

Handle lengths: Standard 8 ft. (2.4m) - Small 5.5 ft. (1.7m) - Long 11 ft.(3.3m) – other lengths available on request (Sasrad can supply up to 20ft (6m). Handles are Lightweight Aluminum with option of upgrading to graphite.
