

10,000 Seats and Counting

SIP Print Group, Inc. In conjunction with Kb Data Deploys its 10,000th Allworx® Call Recording Seat

ORANGE, CA, USA, May 16, 2017 /EINPresswire.com/ -- SIP Print Group, Inc., the leading manufacturer of Cloud based [call recording](#) systems and Kb Data, an industry leader in the design, installation and service of SIP based business telephone systems are pleased to jointly announce the sale and installation of the 10,000 Allworx® SIP Print call recording seat. This milestone is a testament to the companies' decade long partnership of delivering design-specific Unified Communications solutions across North America.

SIP Print Group, Inc. is widely recognized as the industry leader in Cloud based call recording by providing an affordable plug-and-play appliance which offers system-level voice recording for businesses, non-profit organizations and government & municipalities. As organizations increasingly turn to Unified Communications, compliance and regulatory changes, and corporate quality programs drive strong demand for call recording, SIP Print Group is well positioned as a leading provider of affordable Cloud based and on-premise solutions to record and archive calls on Unified Communications and Unified Communications as a Service platforms.

"We are delighted to reach this milestone with our longstanding and key partner, Kb Data. While this is important for us both, we view this as a stepping stone towards an even greater reach within the 30,000 plus Allworx® customer community," said Nancy Griffith, Senior Vice President of Sales for SIP Print Group, Inc. "Being backwards compatible with all Allworx® server and phone models allows us to approach both new and existing Allworx® customers. And we feel that our partnership with Kb Data will allow for us both to continue to deliver the most valuable solutions to the Allworx® customer base." Among the Allworx® specific products SIP Print is compatible with are the Allworx® Connect™ platform (including the 731, 536, 530, 324 and 320 Servers), legacy Allworx® systems (including 6x12, 6x, 48x, or 24x) and all Allworx® Phone models.

"Unified Communications is an ever-advancing industry. And it can be challenge for companies to stay up-to-date on the latest solutions that can improve, grow and drive their business. At Kb Data, we are committed to being our clients trusted advisor, ensuring the adoption of the right technology to meet their corporate goals," said Greg Stiff, President of Sales of Kb Data. "That's one of the main reasons we've been strategic partners with SIP Print for so long. Their 'customer first' orientation really meshes perfectly with the Kb Data mentality. And their ability to innovate, especially with their Cloud model, has really shaken up the Call Recording industry, allowing Kb Data to continue to bring best of breed solutions to our clients. We look forward to continuing success in the Allworx® market together with SIP Print"

About SIP Print

SIP Print is redefining the call recording with the industry's first and only Cloud based call recording system tailored to small and medium-sized businesses with up to 200 seats per location. SIP Print appliances offer; easy installation, simple maintenance and operation, and scalability to support the expansion of high-growth SMBs. While calls are searchable and playable from the Cloud based web portal, all media is stored locally within the customer network. The SIP Print Cloud Call recording is compatible and easily integrated with the industry's leading Unified Communications systems and supports leading Hosted Voice providers as well. The company's affordable, one-of-a-kind call

recording systems are available through distributors, resellers and OEMs worldwide. To discover the power and simplicity of SIP Print please visit: www.sipprint.com.

About Kb Data

Kb Data believes that technology is meant to serve the business and enable productivity, not to disrupt operations and cash flow.
