

Personalization Market 2017 Share, Trend, Segmentation and Forecast to 2022

*Personalization Market Analysis 2017
(By Segment, Key Players and
Applications) and Forecasts To 2022*

PUNE, INDIA, May 16, 2017

/EINPresswire.com/ -- Summary
"TrendSights Analysis: [Personalization](#)",
is part of TrendSights series and
explores how brands can provide a
superior and more unique fit for specific
consumer segments.

Personalization is an essential attribute to consider for brands seeking to target today's individualistic consumers. More specialized and differentiated products are being introduced in order to optimally cater for different age, gender, and ethnic groups, as well as the lifestyle benefits sought by more demanding consumers.

Scope

- 43% of consumers globally have a more favorable perception of products featuring claims personalized to their needs.
- Personalization benefits rank among the top 10 factors that would encourage consumers to buy luxury/premium products.
- Brands should consider updating traditional personalization approaches, such as by demographic, through combining lifestyle cues alongside conventional segmentation.

Reasons to buy

- Gain insight into the different routes through by which products can align with the Personalization trend, including examples of best-in-class innovation.
- Compare the presence of this trend in each industry across the FMCG space, and learn what the key opportunities are.
- Identify the innovation implications of personalization for your sector.
