

Robotic Process Automation Market Global Trends, Size, Share, Statistics, Segmentation Analysis by Forecast to 2022

Global Robotic Process Automation Market, By Organization Size (SMEs, Large Enterprises and Industries)-Forecast to 2022

PUNE, MAHARASHTRA, INDIA, May 17, 2017 /EINPresswire.com/ -- Market Highlights:

[Robotic Process Automation Market](#) has seen tremendous opportunities in the future, as once the RPA software has been trained, companies will be able to reap the benefits of this software as it has proven to be very effective in back-office tasks and middle-office tasks in various industries. The industries where RPA can be a boon is BFSI, Supply Chain, accounting, CRM and HRM among others.

“

Automation Anywhere (France), Blue Prism (U.K.), OpenSpan (U.S.), Celatton (U.K.), Exilant (India)”
Market Research Future

RPA or Robotic Process Automation Market is an application technology where software with capabilities of artificial intelligence and machine learning are used for handling high volume, repeatable tasks. RPA allows an employees to configure and program a computer software or a robot to interpret exiting application in the organization for manipulating data, processing transactions and communicating with digital systems. The

RPA is similar to traditional IT automation but the major difference between these technologies is, RPA is capable of learning itself and adapt to changing circumstances which a traditional IT automation system lacks.

Major Key Players:

- Automation Anywhere (France)
- Blue Prism (U.K.)

- OpenSpan (U.S.)
- Celaton (U.S.)
- Exilant (India)
- OpenConnect Systems Incorporated (U.S.)
- Verint Systems (U.S.)
- Cognizant (U.S.)
- Infosys Limited (India)
- Atos Corporation (France)

Segments:

The Global market of RPA is segmented on the basis of Organization Size and Industries. By organization size, the market has been segmented into SMEs and large enterprises where by industries the market consist deep study of segments- BFSI, Manufacturing, IT and Retail among others.

Study Objectives of Global Robotic Process Automation Market:

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the global Robotic Process Automation market.
- To provide insights about factors affecting the market growth.
- To analyze the global Robotic Process Automation market based porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW).
- To provide country level analysis of the market with respect to the current market size and future prospective.

Intended Audience:

- Technology Providers
- Robots Manufacturing Companies
- Software distributors
- Software developing companies
- Banking Industry
- Research Institutes

Market Research Analysis:

MRFR analysis shows that North America is dominating the market of RPA in the year 2016. High development in the IT industry and growing banking sector is driving the market in North America. Also, presence of developed countries in this region gives North America a competitive advantage over other countries.

Europe is expected to stand as second biggest market due to the growing automotive and Healthcare industry in Germany and Italy. Asia-Pacific is expected to emerge as fastest growing market as China, South Korea and Japan are few of the biggest manufacturing driven economies. High demand of consumer electronic products in this region is also pushing the manufacturers to adopt RPA in the process.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level

market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
