* An employee of a 'Sleep Center' that is gouging Medicare with significant up-coding or for medical procedures that never took place or procedures that were medically unnecessary.

The Idaho Corporate Whistleblower Center says, “We are urging a medical doctor or healthcare worker in Idaho to call us anytime at 866-714-6466 if they have proof their employer is involved in significant overbilling of Medicare. In some instances, an eyewitness account is good enough. What makes Idaho unique is that with so many smaller cities or

towns a local healthcare provider can get away with all kinds of things and the employees say nothing

out of fear of losing their job.

"Why sit on a winning lotto ticket without ever discovering what it could be worth? We are all about helping a Idaho healthcare whistleblower getting rewarded for their information about substantial Medicare overbilling as we would like to discuss anytime"

Simple rules for a whistleblower from the Idaho Corporate Whistleblower Center: Do not go to the government first if you are a potential whistleblower with substantial proof of wrongdoing. The Idaho Corporate Whistleblower Center says, "Major whistleblowers frequently go to the government thinking they will help. It's a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower's information could destroy any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant Medicare fraud, overbilling the federal government for services never rendered, multi-million dollar state or federal tax evasion, or a Idaho based company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded."

Unlike any group in the US the Corporate Whistleblower Center can assist a potential whistleblower with packaging or building out their information to potentially increase the reward potential. They will also provide the whistleblower with access to some of the most skilled whistleblower attorneys in the nation.
