

Global Automotive Disc Brake Market 2017 Analysis and Forecast 2022 by Company Profiling and Porters Five Force Analysis

OrbisResearch.com has published new research report on "Automotive Disc Brake-Global Market Outlook (2016-2022)" to its database.

DALLAS, TEXAS, UNITED STATES, May 18, 2017

/EINPresswire.com/ -- According to Statistics MRC, the [Global Automotive Disc Brake Market](#) is expected to grow at a CAGR of 6.7% during the forecast period 2016 to 2022. Factors such as technological developments in boosters and electric-mechanical systems, growing demand for higher performing vehicles, government mandate for improving vehicle safety and rise in demand for disc brake in motorcycles are driving the market growth. However, high manufacturing cost involved is expected to restrain the market growth. Further,

inconsistent stopping time, uncertainty among Japanese OEMs over Brexit, stiff competition from low-cost drum brakes in budget segment cars are observed to show growth challenges to the market. Increased popularity of air disc brakes in commercial vehicles, rising adoption of carbon ceramic brake pads and growing proliferation of break-by-wire (BBW) are few trends that market will witness.
