

Automotive Test Equipment Industry Research, Top Manufacturers, Growth Analysis and Forecast to 2022

Automotive Test Equipment Market Analysis by Product Type (Wheel Alignment Tester), Vehicle Type, Application (Handheld Scan Tool) and Region - 2022

“ We enable our customers to unravel the complexity.”

Market Research Future

PUNE, MAHARASHTRA, INDIA, May 18, 2017 /EINPresswire.com/ -- Market Research Future published a Half Cooked Research Report (HCRR) on Global [Automotive Test Equipment Market](#)

Market Overview:

Major Key Players are Honeywell International Inc. (U.S.), ABB Ltd. (Switzerland), Delphi Automotive PLC (U.K.), Actia S.A. (France), Advantest Corp (Japan), Horiba Ltd. (Japan)”

Market Research Future

Automotive Test Equipment is the equipment used in the automotive to ensure their proper testing with an objective to provide a better rider experience to the driver and ensure their safety while driving. The market is growing rapidly with the introduction of various stringent emission control rules upon the rising concern for environment protection. The increase in production of motor vehicles is also contributing to the growth of the automotive test equipment market. The increasing awareness among drivers, about the testing of their vehicles and the

connectivity of testing methodology with smartphones are also driving the demand of Automotive Test Equipment.

Competitive Analysis-

Major Key Players in Automotive Test Equipment Market are

- Honeywell International Inc. (U.S.),
- ABB Ltd (Switzerland),
- Delphi Automotive PLC (U.K.),
- Robert Bosch GmbH (Germany),
- Actia S.A. (France),
- Advantest Corp (Japan),
- Floriba Ltd. (Japan),
- Softing AG (Germany)
- Teradyne Inc. (U.S.)

Access the market data and market information presented through more than 25 market data tables and 25 figures spread over 111 numbers of pages of the project report "Automotive Test Equipment Market - Forecast to 2022"

Scope of the Report

This study provides an overview of the Global Automotive Test Equipment Market, tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global automotive test equipment market by its product type, vehicle type, application and region.

By Product type

- Wheel alignment tester
- Engine dynamometer
- Chassis dynamometer
- Vehicle emission test system

By vehicle type

- Light commercial vehicle
- Heavy commercial vehicle
- Passenger cars

By Application

- Mobile device based scan tool
- Handheld scan tool
- PC/ laptop based scan tool
- Others

By Region

- North America

- Asia Pacific
- Europe
- Rest of the World

Intended Audience

- Test equipment manufacturers
- Distributor & Supplier companies
- End Users
- Consultants and Investment bankers
- Government as well as Independent Regulatory Authorities

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services,

technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
