

Global 3d Printing Materials Market is expected at a CAGR of 19% by Forecast to 2022

3D printing material is used to manufacture a 3 dimensional object wherein consecutive layers of a specific material.

PUNE, MAHARASHTRA, INDIA, May 19, 2017 /EINPresswire.com/ -- Market Highlights:

3D printing material is used to manufacture a 3 dimensional object wherein consecutive layers of a specific material are formed to create another object. There are several processes of creating a 3D printing material such as selective laser melting (SLM), fused filament fabrication (FFF), stereo lithography (SLA) and a few more.

The key drivers for this market are growing popularity and the rapid acceptance of 3D printing technology. Greater competition has led to decrease in prices and at same time improvements in speed, quality and expansion of its applications in various fields. The increase in demand by end use industry is also acting as a major factor for its growth.

Sandvik AB, Höganäs AB, Solvay S.A., EOS GmbH, Arcam AB Inc., 3D Systems Corporation”

Market Research Future

The global [3d Printing Materials Market](#) is expected to cross USD 1,500 million at a CAGR of round 19% by the end

of the forecasted period.

Major Key Players:

- Sandvik AB
- Höganäs AB
- Solvay S.A.
- EOS GmbH

- Arcam AB Inc.
- BD Systems Corporation,
- Royal DSM N.V
- Arkema S.A. Inc.
- ExOne GmbH Inc.
- Stratasys Ltd. Inc.

Regional Analysis:

The regional analysis of 3D printing material market is being studied for areas such as Asia Pacific, North America, Europe and rest of the world. Europe would be the largest growing market in terms of market size because of the expansion and development of industrial area of this region. However APAC is expected to register the fastest growth during the forecasted period.

Target Audience:

- Manufacturers
- Raw Materials Suppliers
- Aftermarket suppliers
- Research Institute / Education Institute
- Potential Investors
- Key executive (CEO and COO) and strategy growth manager

Product Analysis:

- Product matrix which gives a detailed comparison of the market for different recycled product types

Additional Information:

- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

Geographic Analysis:

- Geographical analysis across 15 countries

Company Information:

- Profiling of 10 key market players
- In-depth analysis including SWOT analysis, and strategy information of related to report title
- Competitive landscape including emerging trends adopted by major companies

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
