

# DynaCERT Now One of North America's Fastest Growing Companies as Output Accelerates for Fuel Saving-Greenhouse Gas Tech

*dynaCERT Inc. now tracking at >US\$100 million in sales for 2017, Analyst sets >\$3/share price target for TSX-V:DYA*

NEW YORK, NY, UNITED STATES, May 19, 2017 /EINPresswire.com/ -- dynaCERT Inc. (TSX-V: DYA) (OTC: DYFSF) is advancing sales of its proprietary HydraGEN™ H2/O2 technology. Its new HG-1 unit targeting the diesel truck market was recently introduced to the market. The unit is an on-demand electrolysis unit designed for internal combustion engines which supplies the air intake with hydrogen and oxygen gases separated and controlled via smart-ECU -- results show increased fuel economy, increased torque, extending oil life, and reduction in emissions.

Last month dynaCERT announced the launch of its HG-2 unit targeting the refrigeration container and light truck market, and this last week the Company announced the ability to essentially daisy-chain HG-1 units to service the power generation market along with a related contract. Earlier this month dynaCERT's CEO, Jim

Payne, provided an interview with Jay Taylor of Hard Money Advisors Inc. about the opportunity and developments within the Company that will be of interest to shareholders.

“

Right now dynaCERT is one of the fastest growing companies in Ontario, if not Canada”  
*dynaCERT's CEO, Jim Payne*

The analyst currently maintains coverage on dynaCERT Inc. with a 'Buy' recommendation and near-term (12 month) price target of US\$2 to \$2.50/share (~\$2.60 to \$3.30 Canadian), also it is a stock he owns personally.

dynaCERT was recently named to the 2017 TSX Venture 50 (a ranking of the best growth companies on the exchange) and ranked Number 1 across all sectors.

The entire 15 minute May 2, 2017 interview may be listened to at:

<https://www.voiceamerica.com/episode/98749/lessons-for-today-from-the-ford-motor-company> online (the dynaCERT interview begins just prior to the 10 minute mark). In the interview the CEO states that the company is currently producing HG-1 units at a rate of 50 per day and shipping them right out. dynaCERT is expecting in excess of US\$100 million sales for 2017 at 60% gross profit, and has new products and markets coming online. The Company has not yet given targets for 2018, however we do know the Company is targeting a near-term 6,000 HG-1 units per month run rate -- NOTE: 6,000 HG-1 units per month sales would generate ~US\$40,000,000 in sales per month and DYA.V would be at 2/3 gross profit margins.

The CEO stated that right now dynaCERT is one of the fastest growing companies in Ontario, if not Canada.

dynaCERT was recently named to the 2017 TSX Venture 50 (a ranking of the best growth companies on the exchange) and ranked Number 1 across all sectors.
