[Global Dairy Processing Equipment Market](#)

Description

The advent of processed dairy products has opened up new avenues such as off-farm jobs including collection, marketing, transportation, and processing. It is observed that in less developed countries, milk is directly sold to the public, and in milk manufacturing countries, it is sold on a wholesale basis. In developed countries, customers are more health conscious, which increases the demand for processed dairy products.

Dairy processing involves treatment of fluid milk, cheese, yogurt, ice cream, non-fat and whole dry milk powder, dry buttermilk and whey, whey protein concentrate, lactose powder, and powder blends. Milk processing constitutes a significant portion of dairy processing, as much of the milk available in supermarkets is processed.

Dairy processing equipment can be standalone equipment such as a batch pasteurizer or a milk-receiving unit, or it may involve complete installation for the processing of milk. While the underlying principles involved in dairy processing have essentially remained the same over the years, the processes have become more specialized and refined, and the equipment has evolved as per the needs.

Covered in this report

The report covers the present scenario and the growth prospects of the global dairy processing equipment market for the period 2015-2019. To calculate the market size, the report considers revenue generated through sales of dairy processing equipment for various applications in the market.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The Global Dairy Processing Equipment Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Alfa Laval
- GEA Group
- Krones
- SPX
- Tetra Laval

Other prominent vendors

- A&B Process Systems
- C. van't Riet
- Farm and Ranch Depot
- IDMC
- Marlen International
- Paul Mueller
- Scherjon Equipment Holland

Market driver

- High demand for dairy products in developing countries
- For a full, detailed list, view our report

Market challenge

- Waste generated in dairy processing
- For a full, detailed list, view our report

Market trend

- Diversifying product range
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Global dairy market outlook
- Global milk production
- Market Overview

- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by application

- Global dairy processing equipment market by application
- Global dairy processing equipment market by processed milk
- Global dairy processing equipment market for cream
- Global dairy processing equipment market for milk powder
- Global dairy processing equipment market for cheese

PART 07: Geographical segmentation

- Global dairy processing equipment market by geography
- Dairy processing equipment market in EMEA
 - KSA
 - UAE
 - Oman
- Dairy processing equipment market in APAC
- Dairy processing equipment market in the Americas
 - Milk production in the US

PART 08: Market drivers

- High demand for dairy products in developing countries
- Abolition of milk quota in the EU
- Innovation in packaging industry
- Demand for better operational efficiency
- Larger processing plants
- Decline in raw material prices

PART 09: Impact of drivers

PART 10: Market challenges

- Waste generated in dairy processing
- Long replacement life

PART 11: Impact of drivers and challenges

PART 12: Market trends

- Advances in technology
- Demand for HPP technology
- Diversification of product range

- Increased automation solutions

PART 13: Vendor landscape

- Competitive scenario
- Other prominent vendors

PART 14: Key vendor analysis

- Alfa Laval
- GEA Group
- Krones
- SPX
- Tetra Laval
