

Bio Relief™ Releases Knee Pain Solution to the General Public

New Product Makes Use of Beneficial Infrared Heat Technology for Home Use

NEW YORK, NEW YORK, USA, May 22, 2017 /EINPresswire.com/ -- Bio Relief™ has announced that the successes are beginning to pour in for their newest offering in [Knee Pain Relief Products](#). Nearly 20 million Americans experience knee pain every day. Now there is a non-surgical, non-drug, alternative solution. It's their Far Infrared Heated Knee Wrap which has just been released for general use. The Bio Relief Heated Knee Wrap is available through their storefront at [Amazon.com](#).

According to Bio Relief spokesperson, Jim Mets, "The positive results from using our product are now pouring in. Anyone suffering from knee pain will find [Knee Pain Relief](#) with our product. It's exciting for us to be able to produce a

safe alternative solution to drugs and other methods of handling pain. Because we are so excited to get this product broadly available on the market, we are offering a special introductory discount for first time customers. Supplies are limited and we expect that these will sell out very fast"

“

I put it on my knee every night and it feels wonderful!”

K.S.

wonderful! I have a titanium joint replacement, so I use it on low heat and it is just perfect to make my knee feel better.”

Far Infrared Heat is the same type of heat you get from being out in the sun on a warm summer day. This new product make use of amethyst and tourmaline crystals to produce this beneficial heat. Wrapped in a cotton and leather exterior, this device is designed to be both comfortable and portable. This beneficial heat deeply penetrates the entire area, providing pain relief caused by Arthritis in Knee, bursitis, rheumatism, fibromyalgia and a host of other conditions. It increases blood circulation to the area and promotes cell metabolism to assist the body in recovering.
