

Medyamax inc. WebDev group launched a new service line to help US. importer/exporters

NEWYORK, NEW YORK, USA, May 22, 2017 /EINPresswire.com/ -- Medyamax inc. [WebDev](#) group launched a new service line to help US. importer/exporters

Press Release, Global distribution-
NEW YORK - May 21, 2017 -

Medyamax Inc. WebDev group exhibited at NEW YORK SMALL BUSINESS EXPO®, May 11th, 2017 at the Javits Convention Center. NY

All day-long conference, expo and trade show, brought together the business and industry leaders, business owners and entrepreneurs.

The New York Small Business Expo 2017

Medyamax inc. WebDev group presented it's core web design/web/app development services and newly launched a new service line called "Data Driven – Global Trade Lead Generation" which cultivates potential buyers/sellers for the import/export community" using available data science, machine learning tools, technology and trade data platforms.

Medyamax launched a new line of service by extending it's web/data services to help imp/export community to find prospect buyers & sellers. source or manufacture commodities worldwide by using global trade datas. Using today's available technologies to make it easy to create a short list of new business opportunities to importers and exporters. Using data science, machine learning tools,] technology and data platforms allows us to find better business opportunities for importers and exporters. By using advance techniques, Harmonized Tariff code (HS / HTS codes) and location-based searches brings over millions of company and shipment records publicly available and monitoring import and export activities across the glob, these platforms able to deliver valuable trade information and help to import and export companies, let them seeing where their competitors sources the products and which entities are involved in the shipment of goods. This make them identify the supply chain channels and able to find best prospects. System uses Intuitive shipment & company search tools such as publicly available trade data between U.S. businesses with foreign entities in over 190 countries.
