

Satellite Propulsion System 2017 Global Market Expected to Grow at CAGR Of 4.09% and Forecast To 2021

Wiseguyreports.Com Publish New Market Research Report On-"Satellite Propulsion System 2017 Global Market Expected to Grow at CAGR Of 4.09% and Forecast To 2021"

PUNE, INDIA, May 22, 2017 /EINPresswire.com/
--

[Satellite Propulsion System Market 2017](#)

About Satellite Propulsion System

Satellite propulsion systems are used to accelerate/power a satellite into the orbit. They can be chemical, hybrid, or all-electric.

The analysts forecast the global satellite propulsion system market to grow at a CAGR of 4.09% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global satellite propulsion system market for 2017-2021. To calculate the market size, the report considers the new installations.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/1292263-global-satellite-propulsion-system-market-2017-2021>

The report, Global Satellite Propulsion System Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Aerojet Rocketdyne
- Airbus
- Bellatrix Aerospace
- Boeing
- OHB
- Safran

Other prominent vendors

- BALL CORPORATION
- Mitsubishi Electric
- Orbital ATK
- Thales

Market driver

- Low-cost propulsion systems for micro and nano satellites
- For a full, detailed list, view our report

Market challenge

- Cost-intensive satellite launch programs
- For a full, detailed list, view our report

Market trend

- Propulsion by inert gases
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline
- Key takeaways
- Key buying criteria

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by propulsion type

- Market segmentation by propulsion type
- Market segmentation by revenue
- Global chemical propulsion satellite market
- Global hybrid propulsion satellite market
- Global all-electric propulsion satellite market

PART 07: Geographical segmentation

- Market share by geography
- Geographical segmentation by revenue
- Satellite propulsion system market in the Americas
- Satellite propulsion system market in EMEA
- Satellite propulsion system market in APAC

PART 08: Decision framework

PART 09: Drivers and challenges

- Market drivers
- Market challenges

PART 10: Market trends

- Propulsion by inert gases
- Rapid deployment of CubeSats
- Use of green propulsive technologies
