Latest Report on Gelatin Market Global Analysis & 2022 Forecast Research Study

Global Gelatin market is expected to grow at a CAGR of 8.25% during the forecast period 2015 to 2022. Increasing use in nutraceuticals, recognition of preventive healthcare, growing demand for technical textile and utilization of functional food are the major factors driving the market growth. However, growing gelatin prices, food security concerns and threat of vegan gelatin substitutes are some of the factors hindering the market growth. Pharmaceutical applications are expected to witness fastest growth on account of rapidly expanding usage of hydrocolloids in production of tablets and capsules.

Pig skin segment holds the maximum share of the gelatin market. Huge amount of collagen found in pig skin is one of the key factors driving this segment. Bovine hides and bones are unrefined materials that are used broadly in the market, and both these segments combined together account for less than 60% share of the overall gelatin market. Europe dominated the gelatin market in terms of volume in 2015. Asia Pacific is expected to witness high growth rate due to healthcare investments in emerging countries such as China and India.

Some of the key players in global gelatin market include Nitta Gelatin Inc., Catalent Pharma Solutions, PB Gelatins, Capsugel Inc., Sterling Gelatin, Gelita AG., Rousselot S.A.S., Weishardt Group, Gelken Gelatin Co. Ltd, Roxlor LLC, Norland Products Inc. and Jiliding Marine Biotech Co. Ltd.
