VegSpeedDate is more than just a dating service, it offers “speed dating” events for vegetarian and vegan individuals throughout the United States. While many people turn to VegSpeedDate to meet a likeminded individual for dating, the service also works to connect people on a friendship level too.

VegSpeedDate is a good solution for those who live a vegetarian or vegan lifestyle. After all, it can be especially difficult for those individuals to meet friends or dates without a program like this in place. In addition to regular speed dating events, VegSpeedDate offers events for the LGBTQ

community and participates in major vegetarian and vegan festivals throughout the country. With hundreds of people attending some of these events, it only makes sense that an easy-to-use ticketing program be used to make registration and event attendance go smoothly.

Purplepass is able to offer event attendees online ticket pre-sales and provides an easy-to-use check in system that works with Facebook. The Purplepass system is very convenient and takes the stress off the VegSpeedDate organizers and makes for a seamless event experience for those who just want to show up and meet new friends.

Purplepass is more than just a ticket service. Purplepass is a full-service event organization company that makes pre-registration, sign up and day-of registration smooth and simple too. The Purplepass team feels that its ticketing service is a great way to make the VegSpeedDate events more fun for attendees and easier for the event staff. With this partnership, it may be possible for VegSpeedDate to grow and offer events for vegetarians in more cities across the United States.
