

Global Infrared Imaging Market Analysis, Size, Share, Trends and Forecast by 2022

OrbisResearch.com has published new research report on "Infrared Imaging-Global Market Outlook (2016-2022)" to its database.

DALLAS, TEXAS, UNITED STATES, May 25, 2017 /EINPresswire.com/ -- According to Stratistics MRC, the Global Infrared Imaging Market is accounted for \$7.94 billion in 2016 and is expected to reach \$14.15 billion by 2022 growing at a CAGR of 10.1% during the forecast period 2016 to 2022. After the absorption of Infrared technology in the market, it has been widely adapted across the verticals. High demand for security had given prominent market for IR cameras which is driving the market. In addition to that Infrared imaging technology has gained its prominence across various verticals for

varied applications which had created great opportunity for the market.

Request a sample of the report: http://www.orbisresearch.com/contacts/request-sample/292320

Uncooled IR Technology in application segment is expected to dominate the market, owing to its less expensive feature and long duration operation compared to Cooled IR Technology. Surveillance segment is expected to be dominant among all applications attributing to the growing demand for high security at home, industries etc. North American market is expected to be dominant among all regions attributed to the technological advancement pace in the countries like U.S.A, Mexico etc. However, Asia Pacific is expected to grow at highest CAGR due to the foraying technologies.

Some of the key players of the Infrared Imaging market include Axis Communications AB, Bosch Security Systems, Inc., DRS Technologies, Inc., Flir Systems, Inc., Fluke Corporation, General Dynamics Mission Systems, Inc., L-3 Communications Holdings, Inc., Opgal Optronics Industries Ltd., Samsung Techwin, Sofradir Group and Zhejiang Dali Technology Co., Ltd.

Wavelengths Covered:

Far-Infrared

Long-Wave Infrared

Mid-Wave Infrared

Near-Infrared

Short-Wave Infrared

Components covered:

Infrared Sensors

Infrared Detectors

Indium Gallium Arsenide (INGAAS)

Mercury Cadmium Telluride (MCT)

Microbolometer

Microcantilever

Pyroelectric

Thermopile

Infrared Lens Systems

Other Components

Types covered:

Fixed IR Imaging Products

Portable IR Imaging Products

Applications covered:

Aerospace and Defense

Automotive

Consumer Electronics

Fire Fighting

Industrial

Medical

Surveillance

Homeland Security

Industrial

Military

Technologies covered:

Cooled IR Technology

Uncooled IR Technology

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

France

Italy

UK

Spain

Rest of Europe

Asia Pacific

Japan

China

India

Australia

New Zealand

Rest of APAC

Rest of the World

Middle East

Brazil

Argentina

South Africa

Egypt

What our report offers:

Market share assessments for the regional and country level segments

Market share analysis of the top industry players

Strategic recommendations for the new entrants

Market forecasts for a minimum of 7 years of all the mentioned segments, sub segments and the regional markets

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments Supply chain trends mapping the latest technological advancements

About Us:

Orbis Research (orbisresearch.com) is a single point aid for all your market research requirements. We have vast database of reports from the leading publishers and authors across the globe. We specialize in delivering customized reports as per the requirements of our clients. We have complete information about our publishers and hence are sure about the accuracy of the industries and verticals of their specialization. This helps our clients to map their needs and we produce the perfect required market research study for our clients.
