

# Lightforce 4WD Driving Lights - Huge Sale On at 12 Volt Technology

*Get yourself a great deal on a massive selection of Lightforce 4WD Driving lights.*

ASHMORE, QLD, AUSTRALIA, May 26, 2017 /EINPresswire.com/ -- With Winter approaching fast, the nights come earlier and those days start later. For those that spent a lot of time in their car, 4WD, Truck, Bus, Motorhome or RV then you know how important your lights are of a night time, dawn and dusk.

Australian made Lightforce is leading the industry in designing high quality 4WD lights for various applications ranging from the simple car and 4WD Driving Lights in the Lance and Striker series, all the way through to the powerful XGT series for Motorhomes, Trucks and Buses. But Lightforce isn't just limited to those two, they have a massive selection of 4WD Driving lights and 12 Volt Technology carries the full range of Lightforce Lance, Genesis, Blitz, Striker, XGT, Venom, HTX and LED Driving Lights, including the [Lightforce LED Lightbars](#).

“

When it comes to Driving Lights we carry a huge selection of the Best Brands at the Best Prices. Check us out and get yourself a great deal.”

*Paul Goldman*

Some of the top selling lights include the [Lightforce DL230HTX](#) series which is a hybrid of HID and LED Technology, and you can purchase them as an individual light or a pair, and if you want the whole kit with wiring 12 Volt Technology has that too, which can save you hundreds of dollars.

The [Lightforce Venom](#) series is available in 35W HID and 50W HID, but just recently Lightforce released their new LED Venom series. The Lightforce DL150 Venom 75W LED driving light is one powerful light giving you 1 LUX at 850m, which

illustrates how powerful the Lightforce DL150 Venom 75W LED driving light really is.

Whilst on the topic of LED lights Lightforce has a full range of LED Lightbars from 6” wide all the way to 20” wide. Various models have either single or dual row of LED lights, allowing for those narrow installations. Don't under estimate the power of the LED Light bars, the 20” Dual Row can deliver a

whopping 200W from 40 LEDs giving you 1 Lux at 458m.

So if you are looking to get your car, 4WD, Truck, Bus, Motorhome or RV all set up for Winter then check out [www.12volttechnology.com.au](http://www.12volttechnology.com.au) and get yourself a great deal on some Lightforce driving lights.
