

Nylon Fiber Market is Set for a Potential Growth and Is Expected to Grow at Healthy CAGR by 2023

Global Nylon Fiber market is set for a potential growth and is expected to grow at healthy CAGR reach by 2023, Nylon Fiber Market Research by type

PUNE, MAHARASHTRA, INDIA, May 26, 2017 /EINPresswire.com/ -- Synthetic textile fibers have revolutionized the textile industry. Such artificial fibres are usually long-chain polymers, produced industrially by the condensation of many small units.

Nylon fiber has found in various industrial applications such as automotive, textile, industrial and others. In Industrial end use nylon fiber used in various application such as sleeping bags, tarpaulins ,tire cord, hoses, conveyer and seat belts, air bags, parachutes, tents, racket strings, ropes and nets, thread, monofilament fishing line, dental floss. Also it is used in Bedspreads,

carpets, rugs, upholstery and in other textiles. Nylon fibers are strong, elastic, abrasion resistant, easy to wash, resistance from oil and other chemicals, can be dye in various colors, moisture resistance, smooth, soft, long-lasting fabrics, light weight and warmth.

“

Major Key Players : E. I. du Pont de Nemours and Company(US), Sumitomo Chemical Co., Ltd.(Japan), Toray Industries, Inc.(Japan), UBE INDUSTRIES,LTD.”

Market Research Future

Nylon 66 fibers is used when the need of stability, rigidity and strong mechanical & chemical resistance. It is used in textiles & carpets industry such as such as apparel, airbags, and for carpet fibers.

Request for Sample Report@ https://www.marketresearchfuture.com/sample_request/2628

Nylon 6 and nylon 6, 6 fiber types will continue to lead the nylon fibers market in forecasted period, additionally textile industry will be the major driver for nylon fiber market. Nylon fiber

take a part a significant role in automotive and textile industries and are also used in the household and other industries.

Key Players

- E. I. du Pont de Nemours and Company(US)
- Sumitomo Chemical Co., Ltd.(Japan)
- Toray Industries, Inc.(Japan)
- OBE INDUSTRIES,LTD.(Japan)
- Aquafil S.p.A(USA)
- Ascend Performance Materials(US)
- Eiber Innovation Technology, Inc.(US)

Regional analysis

Geographically, APAC is a major global market of nylon fiber largely due to automotive and textile industries. Nylon fiber market growth is expected in the Europe on account of the booming end user industries such as textile industries, automotive industries including the applications such as air filtration, clothing, carpets and others. Huge demand in various application such as clothes, fishing, packaging, carpet, air filtration, and others, based likely to drive the nylon fiber market growth in other regions like China, Japan, India, and Indonesia has boosted the nylon fiber market demand.

Segmentation:

The global nylon fiber market is majorly segmented on the basis of types, application, end user and region. Based on types market is segmented into nylon-4,6; nylon-6,6; nylon-6; nylon-6,10; nylon-6,9; nylon-6,12; nylon-11; and Others nylon-12 and others.

Based on application market is segmented into clothes, fishing, packaging, carpet, air filtration, and others, based on end user market is segmented into automotive, textile, industrial and others and based on region market is segmented into North America, Europe, APAC, Latin America, Middle East & Africa.
