

# Global Enterprise Social Software Market Analysis, Share, Trends and Forecast by 2022

*Global Enterprise Social Software Market is expected to reach \$13.55 billion by 2022 growing at a CAGR of 13.6%.*

DALLAS, TEXAS, UNITED STATES, May 26, 2017

/EINPresswire.com/ -- According to Statistics MRC, the [Global Enterprise Social Software Market](#) is accounted for \$5.53 billion in 2015 and is expected to reach \$13.55 billion by 2022 growing at a CAGR of 13.6%. With the increase in need of connectedness and mobility through secured social media, ESS is creating a boom in the global market. The demand for enterprise internet working among clients, partners, distributors and employees in the commercial units has creating a void in market, which is being filled by ESS. Current trend of Cloud service is also creating a buzz in market, it is one of the very important part of ESS. These are helping enterprises to gain priority in ESS in implementation while reducing huge investments. ESS is being embedded in existing business applications by registering growth in limited features platform. All are being current trends but less awareness and processing cost are the factors chopping down the market growth. In Asia Pacific region the market is emerging fast as being a developing region whereas North America is the largest revenue generating market due to the vast adoption.
