

# Global Mobile BI Market Industry Analysis, Segments, Key Players, Drivers, Trends by Forecast to 2022

*Global Mobile BI Market, By Service (Managed Services, Professional Services), By Business Function - Forecast 2022*

PUNE, MAHARASHTRA, INDIA, May 26, 2017 /EINPresswire.com/ -- Market Highlights:

Mobile business intelligence is software that spreads desktop business intelligence applications so that they can be used on a mobile device. The Mobile business Intelligence applications optimizes traditional business intelligence reports so that they can be viewed easily on a small screen and is ideal for displaying key performance indicators and alerts on small screens with simple charts, graphs and spark lines.

An additional benefit of mobile business intelligence is that it allows data that's captured by the mobile device to be integrated so that reports are on current data and mobile workers can make informed decisions in real time.

Micro Strategy (U.S.), SAS Institute (U.S.), Tableau Software (U.S.), Information Builders (U.S.), TIBCO Software (U.S.), Yellowfin International Pty Ltd. (U.S.)”  
*Market Research Future*

The key drivers contributing to the growth of the mobile business intelligence market are the change from traditional business intelligence (BI) techniques to advanced BI & analytics techniques, which can be easily managed & utilized from anyplace at any time, the massive surge in the Bring Your Own Device (BYOD) trend across industry verticals. Also, Mobile BI Market permits big data to be converted into relevant and actionable insights for a quick problem solution.

Taste the market data and market information presented through more than 30 market data tables and figures spread over 100 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on “[Mobile BI Market Research Report -Forecast to 2022](#)”.

Major Key Players:
