Description

Wiseguyreports.Com Adds "Digital Oilfield Solutions -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022" To Its Research Database

According to Statistics MRC, the Global Digital Oilfield Solutions market is expected to grow from \$28.31 billion in 2016 to reach \$40.61 billion by 2022 with a CAGR of 6.1%. Growing exploration & production activities, increasing demand to minimize production costs, and raising safety concerns are some of the factors fueling the market growth. In addition, recent technological developments in oilfield solutions are bolstering the market growth. However, fluctuating oil prices, low adoption of new technologies are limiting the market growth.

Automation & Instrumentation segment is expected to witness a highest growth rate during the forecast period due to limited human capital in industry and optimize the costs of automated oilfield process. Middle East is one of the key markets for digital oilfield solutions. North America region has a significant share in the overall global market and is anticipated to provide lucrative growth opportunities for the market in the next few years. Asia Pacific region is expected to be the fastest growing region, with the industrialization & expansion of oil & gas industry.
