WiseGuyReports.Com Publish a New Market Research Report On - "Microdisplay Market by Manufacturers, Types, Regions and Applications Research Report Forecast to 2021".

[Microdisplays are microminiaturized displays](#) having a screen size of less than 25 millimeters (screen size refers to the diagonal distance from one corner to the opposite corner of the screen). They are high-density screens with high resolution and are used in magnified display systems. Microdisplays are often used in conjunction with magnifying optics because of their miniature size. They are used for two basic applications: projection and near-to-eye display. These applications are used in a number of devices across sectors such as consumer electronics, automotive, healthcare, and industrial. Microdisplays can be incorporated in a number of visual electronic products, with new 3G portable communications devices, digital camera wireless applications, portable DVDs, and PCs.

Covered in this report

The report covers the present scenario and the growth prospects of the global microdisplay market for 2016-2020. To calculate the market size, the report covers the entire range of microdisplay technologies and considers the revenue generated from the sales of microdisplays to the key customer segments: military, aerospace and defense; commercial; industrial; medical; law

Microdisplay Market 2017

enforcement and rescue; and automobile.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Microdisplay Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- AU Optronics
- eMagin
- Kopin
- Universal Display

Other prominent vendors

- Cambridge Display Technology Ltd.
- Epson Corp.
- Fourth Dimension Displays Ltd.
- Himax Display Inc.
- LG Display Co. Ltd.
- Liteye Systems Inc.
- Micron Technologies Inc.
- Microvision Inc.
- Syndiant Inc.
- Wisechip Semiconductor Inc.

Market driver

- Emerging demand for HUDs
- For a full, detailed list, view our report

Market challenge

- Technical issues and design limitations
- For a full, detailed list, view our report

Market trend

- Emerging demand from automotive industry

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

2020

Table Of Contents – Major Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Common currency conversion rates

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by application

- Near-to-eye displays
- Projection-based displays

PART 07: Market segmentation by technology

PART 08: Market segmentation by end-user

- Market overview

PART 09: Geographical segmentation

- Microdisplay market in Americas
- Microdisplay market in EMEA
- Microdisplay market in APAC

PART 10: Market drivers

- Emerging demand for HUDs
- Focus on reducing global aircraft accident rate
- Increasing use of microdisplays for military purposes
