

Solve Puzzles and Explore The World. Maze Attack Kickstarter Campaign Launches on 6/15/2017

KATY, TEXAS, USA, May 31, 2017 /EINPresswire.com/ -- [Maze Attack](#) is an exciting 2D puzzle video game, that offers action and adventure through unique puzzles and boss battles. Many of these puzzles will require observation, awareness and problem solving skills, in-order to overcome such challenging obstacles.

It's funny though. because the process of developing this video game is a puzzle within itself.

And after realizing that, I begin to notice.

Everyday people are faced with hundreds of hundreds of puzzles. And

those puzzles takes them on a journey of adventure; action, drama, challenges, excitement- I mean you name it. I have an idea. Lets make use of a few real life activities as an example to this.

Well, you have people that tries to figure out a good way of managing their funds. Some people try to figure out what to wear to an upcoming event. Some try to avoid or resolve conflict with co-works, and some even wonder when to take a vacation, etc...

“

Alone We Can Do So Little,
TOGETHER We Can Do So
Much.”

Helen Keller

People are faced with puzzles everyday. Some puzzles they fail, and some puzzles they solve.

Which brings us to Maze Attack.

Exploring the world of Maze Attack, Vimgraimeneya (Vim-Grain-Men-Ne-Ya), encourages players to learn about their surroundings, and

each character's unique skills and abilities.

The world of Vimgrainmeneya lurks with surprises. one of those surprises is the presence of the sun. Which will make puzzles less dangerous, but creatures will be more fierce. And the presence of the moon, will make puzzles more dangerous, and creatures less aggressive.

Maze Attack's dream, is to help many people try to solve their problems, puzzles, conflicts and challenges to the best of their abilities. While trying to become the greatest problem solver in the universe. However, solving puzzles is not that easy- but, it is very rewarding.

Solving puzzles in Maze Attack will improve player's critical thinking; problem solving, recognition, path finding, reflex and timing skills. While giving the player a unique captivating and fun story, with a twists that is worth writing home about.
