## [Robotic Parking Systems Market 2017](#)

### About Robotic Parking Systems

With scarcity in parking spaces and appreciating land prices across the globe, vendors in the global automated parking systems market are introducing new products that are cost-efficient and can optimize parking spaces. While the market is dominated by automated and semi-automated parking systems, which use mechanical systems to move cars into parking spaces, in the past five years there has been an upsurge in the adoption rate of robotic parking systems.

The analysts forecast the global robotic parking systems market to grow at a CAGR of 18.46% during the period 2017-2021.

### Covered in this report

The report covers the present scenario and the growth prospects of the global robotic parking systems market for 2017-2021. To calculate the market size, the report considers the revenue generated from new sales and services.

The market is divided into the following segments based on geography:

Americas  
APAC  
EMEA

The report, Global Robotic Parking Systems Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market

landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

#### Key vendor

Boomerang Systems

MHE-Demag

PARKPLUS

Serva Transport Systems

Shenzhen Yeefung Automation Technology

Other prominent vendors

A.P.T. Parking Technologies

Applied & Integrated Manufacturing

FATA Automation

HANGZHOU HIKROBOT TECHNOLOGY

Lödige Industries

Shaanxi Long Xiang Parking Equipment Group

Smart City Robotics

Stanley Robotics

Westfalia Parking Solutions

Worldwide Robotic Automated Parking

Unitronics

#### Market driver

- Scarcity and drawbacks of conventional parking spaces
- For a full, detailed list, view our report

#### Market challenge

- High initial cost of AGVs and peripherals
- For a full, detailed list, view our report

#### Market trend

- Smart parking gaining traction

#### Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

#### Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

- Global AGV market

#### PART 05: Market landscape

- Global robotic parking systems market
- Five forces analysis

#### PART 06: Market segmentation by product

- Global robotic parking systems market by product
- Global robotic parking systems market by robotic parking systems using AGVs along with peripherals market
- Global robotic market systems market by parking systems using standalone AGVs market

#### PART 07: Market segmentation by end-users

- Global robotic parking systems market by end-users
- Global robotic parking systems market by commercial segment
- Global robotic parking systems market by residential segment
- Global robotic parking systems market by others

#### PART 08: Geographical segmentation

- Global robotic parking systems market by geography
- Robotic parking systems market in EMEA
- Robotic parking systems market in APAC
- Robotic parking systems market in Americas

#### PART 09: Decision framework

#### PART 10: Drivers and challenges

- Market drivers
- Market challenges

#### PART 11: Market trends

- Smart parking gaining traction
  - Rising vendor initiatives
- .....Continued
