[Flame Retardant Apparel Market 2017](#)

Personal protective equipment (PPE) is anything worn or used by a person to reduce or minimize any kind of risk to the person's health or safety. PPE includes a wide range of clothing and safety equipment, such as boots, face masks, hard hats, ear plugs, respirators, gloves, harnesses, and high-visibility clothing. PPE finds applications in a number of industries, such as manufacturing, chemical, construction, oil and gas, food and beverage, and pharmaceuticals. PPE is used to reduce the health and safety risks not only at the workplace but also in sports and other recreational activities. The selection of PPE depends on the risks that the wearer is exposed to and the intensity and duration of exposure.

The analysts forecast the global flame retardant apparel market to grow at a CAGR of 5.37% during the period 2017-2021.
