

Cloud Infrastructure Testing 2017 Global Market Expected to Grow at CAGR 16.67% and Forecast to 2020

WiseGuyReports.Com Publish a New Market Research Report On-Cloud Infrastructure Testing 2017 Global Market Expected to Grow at CAGR 16.67% and Forecast to 2020

PUNE, INDIA, May 30, 2017 /EINPresswire.com/

--

The analysts forecast the [global cloud infrastructure testing market](#) to grow at a CAGR of 16.67% during the period 2016-2020.

Cloud infrastructure testing involves testing of physical and virtual components like network, storage, and virtualization. It ensures the security of data and performance of the application deployed on the cloud. Clients using cloud-based solutions are opting for testing services to avoid technical glitches that can hamper the performance of IT infrastructure. Technical glitches not only hamper the business performance of client firms but also reduce operational efficiency and incur cost to the firms.

Testing the cloud involves the verification and validation of applications, environments, and infrastructure, including networks, data centers, storage, and servers. With the help of cloud infrastructure testing, companies are able to maintain productivity and business resilience during disasters.

Covered in this report

The report covers the present scenario and the growth prospects of the global cloud infrastructure testing market for 2016-2020. To calculate the market size, Technavio considers the revenue generated from the total consumption of cloud infrastructure testing globally. The report does not include revenue generated from the aftermarket service of the product.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Cloud Infrastructure Testing Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Compuware
- Ixia
- Spirent Communications
- Wipro

Other prominent vendors

- Apica
- Cloud Harmony
- Core Cloud Inspect
- Infosys
- Monitis

Market driver

- Growth in agile testing services
- For a full, detailed list, view our report

Market challenge

- Ensuring cloud security testing is at optimum level
- For a full, detailed list, view our report

Market trend

- Growth in adoption of testing as a service
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Geographical segmentation

- Global cloud infrastructure testing market by geography

PART 07: Market drivers

PART 08: Impact of drivers

PART 09: Market challenges

PART 10: Impact of drivers and challenges

PART 11: Market trends

PART 12: Vendor landscape

- Competitive landscape
- Other prominent vendors
