

# New York Magazine Recognizes Five Reproductive Medicine Associates of NY Physicians in their 2017 “Best Doctors” Issue

*RMA of New York physicians recognized for excellence in reproductive endocrinology, obstetrics and gynecology and urology in treatment of infertility*

NEW YORK, NY, UNITED STATES, May 31, 2017 /EINPresswire.com/ -- Reproductive Medicine Associates of New York (RMA of New York), a Manhattan-based fertility practice globally renowned as a leader in reproductive care and for achieving exceptional birth rates through assisted reproductive technologies, has once again had several of its physicians recognized as the "[Best Doctors](#)" in the region by New York Magazine. This is the 16th year in a row that RMA of New York physicians have been named on the list, with this year's honorees being Alan B. Copperman, MD, Tanmoy Mukherjee, MD, Daniel E. Stein, MD, Jeffrey Klein, MD and Natan Bar-Chama, MD.

New York Magazine's "Best Doctors" list is based upon data provided by Castle Connolly Medical Ltd., a New York City research and information company that conducts an annual peer-review survey to determine the top ten percent of the region's physicians. Their annual database comprises roughly 6,000 physicians, and from that list a smaller list of 1,300 physicians is provided to New York Magazine for its annual publication.

RMA of New York is the Reproductive Endocrinology and Infertility subdivision of Mount Sinai Hospital, and has an international reputation as one of the top IVF centers in the world. Acknowledging the group's honorable achievement, Dr. Alan B. Copperman, Co-Director of the facility states, "At RMA of New York, our physicians are dedicated to providing compassionate and precise care to our patients. We are privileged to participate in scientific advances that directly impact care and help patients achieve their reproductive goals. We are proud that our professional team has been recognized by so many of our peers."

In addition to serving as co-director of RMA of New York, Dr. Alan B. Copperman is Director of the Division of Reproductive Endocrinology and Infertility, as well as the Vice-Chairman of the Department of Obstetrics, Gynecology, and Reproductive Science at Mount Sinai Hospital. Additionally, he is a Clinical Professor of Obstetrics, Gynecology and Reproductive Science at the Icahn School of Medicine at Mount Sinai. He is a frequent presenter at national and international meetings focusing on patient care and technology in assisted reproductive technologies, including in vitro fertilization, egg freezing, and ovum donation, and has published many award-winning papers and textbook chapters on fertility preservation and infertility treatment.

Dr Tanmoy Mukherjee is a board certified gynecologist and reproductive endocrinologist, is Associate Director of the Mount Sinai Division of Reproductive Endocrinology and co-director of Reproductive Medicine Associates of New York. He completed his residency at the Albert Einstein College of Medicine where he received the Leo M. Davidoff Society Award as well as the Schulman Award, and completed his fellowship at Mount Sinai Hospital.

Dr. Daniel Stein is the director of RMA of New York's Westside office and is Chief of Reproductive

Endocrinology at Mount Sinai Roosevelt Hospital. Dr. Stein served for eight years as medical director of the In Vitro Fertilization program of the former Continuum Reproductive Center. He has lectured extensively on a variety of reproductive topics.

Dr. Jeffrey Klein leads RMA of New York's Westchester office and performs surgery at White Plains Hospital, Hudson Valley Hospital and St. John's Riverside Hospital. Dr. Klein is recognized for his compassionate care and his scientific expertise. He has published both research and clinical reports in peer-reviewed journals as well as chapters in textbooks on a wide range of reproductive topics including IVF, reproductive aging and egg donation.

Dr. Natan Bar-Chama, board certified urologist and male infertility specialist, is the director of the Center of Male Reproductive Health at RMA of New York, as well as director of Male Reproductive Medicine and Surgery and is on faculty in the departments of Urology and Obstetrics, Gynecology and Reproductive Science at the Icahn School of Medicine at Mount Sinai. He is widely recognized for his skill and dedication to male reproductive medicine and microsurgical reconstruction for the treatment of male-factor infertility.

About Reproductive Medicine Associates of New York

Reproductive Medicine Associates of New York (RMA of New York) is widely recognized as a global leader in state-of-the-art reproductive medicine. Led by an integrated team of doctors and scientists with extensive reproductive endocrinology, fertility and urology experience and training.
