

MJB Wood Group Inc. announces the acquisition of the assets of Pacific MDF Products, Inc. of Arkansas and South Carolina

IRVING, TEXAS, USA, June 2, 2017 /EINPresswire.com/ -- MJB Wood Group, Inc. headquartered in Irving, Texas has completed an asset purchase of Pacific MDF Products, Inc. of Arkansas, located in El Dorado, AR, and Pacific MDF Products, Inc. of South Carolina, located in Clio, SC, collectively doing business under the brand Pac Trim.

Pacific MDF Products manufactures a full line of interior MDF moulding to the retail, pro-dealer and industrial market segments. Under this agreement, Pacific MDF, Inc., headquartered in Rocklin, CA, and Canadian MDF Products Company in Edmonton, AB, will continue to own and operate its facilities in California and Canada.

Following the close of this transaction, all employees in the El Dorado, AR and Clio, SC facilities are expected to remain in place.

The acquisition positions MJB as the largest MDF millwork manufacturer in the United States and expands its distribution capabilities to markets across the south and northeast. In addition, this transaction strengthens MJB's manufacturing footprint and allows for future growth in the industrial market segment.

With the addition of these two facilities, MJB pivots from a regional manufacturer to a national supplier of high quality, superior finish MDF moulding and millwork to the U.S. market.

"I am very excited about bringing together a larger, more efficient manufacturing base to better serve our customers and our suppliers while leveraging the market expertise, talent and technology of the MJB team. We look forward to expanding our product offering and added-value capabilities for our customers who are so desperately looking for a solution to the current shortage of qualified workers", said Joe Caldwell, President and CEO.
