Based on industrial application, food industry segment leads the market globally with the highest share during the forecast period. The growth of this segment is owed to the increasing use of psyllium seed powder in breads, drinks, ice creams and bakery products. On the other hand, pharmaceutical industry has acquired the highest growth rate during the forecast period. The growth is contributed to the rising consumption of psyllium seed paste in anti-agent for skin care. Europe is expected to witness highest growth rate during the forecast period due to the maximum consumption of these seeds in pharmaceutical industry.
