

LogicalDOC application now available on QNAP

CARPI, ITALY, June 13, 2017
/EINPresswire.com/ -- A [document management system](#) Giant, LogicalDOC, has scored a huge win with the placement of its application on QNAP. This powerful synergy enables QNAP customers to install LogicalDOC on their device as well as use it as a storage engine. This [knowledge management](#) solution for individuals and businesses is in line with LogicalDOC's aspiration to help people stay organized. It's cross-platform, and cloud-based design means that anyone can access this great tool no matter where they are in the world. It has opened a new channel for file sharing, information exchange and other essentials that help to facilitate business operations.

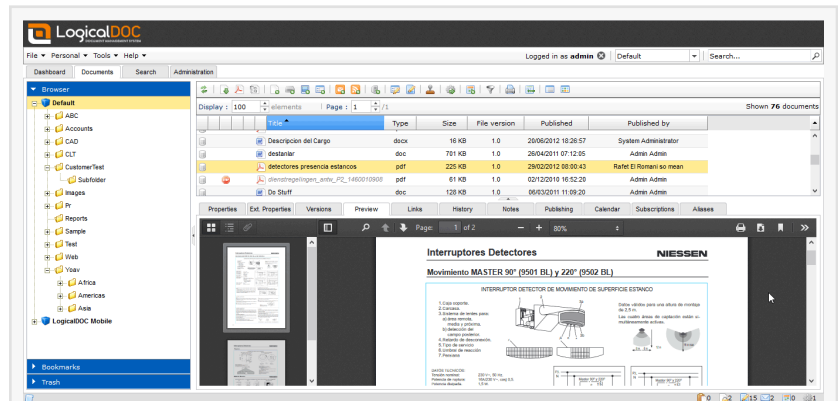

The spokesperson for LogicalDOC, Marco Meschieri has reiterated that – "Each of our innovations come with real-time benefits to our customers. We will keep spreading our service across various channels to build better collaborations and communication across the board. The uniquely designed web interface will continue to reflect the essence of speed, convenience and value to each user."

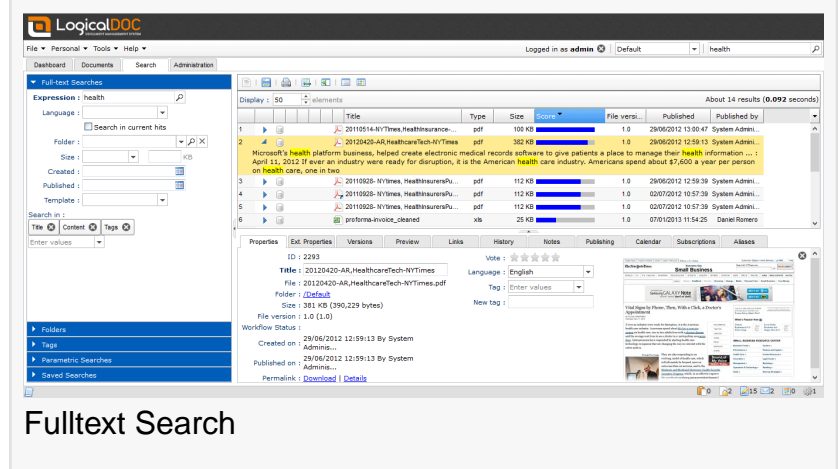

Each of our innovations come with real-time benefits to our customers. We will keep spreading our service across various channels to build better collaborations and communication across the board."
